- Combines all the information you need on one handy label
- Record the total system charge and refrigerant leak check record
- Water and weather resistant
- Helps to comply with F-Gas regulations

The F-Gas regulations require that all stationary refrigeration, air conditioning and heat pump equipment commissioned after 31st March 2008, be labelled with the type of refrigerant used and the total system charge.

AC Pro 2.0 product code: S080270GB

Each pack contains 30 x adhesive labels (140 x 105mm) in the new and improved design, as well as a permanent marker pen.
