

Mimic™

Next Generation Universal Remote Controller

coil cleaners
leak detection & monitoring
recovery machines
vacuum pumps
weighing platforms
acid treatment
fragrances & odour control
flame retardants
tools & accessories

KEY BENEFITS

Perfect replacement for lost/broken air conditioning remote controllers

An invaluable service tool for engineers

Fast and easy to program

Controls all common functions

Programmable timer allows for more economical AC operation

Only one remote controller for multiple units

Compatible with all major manufacturers including:-

- Daikin
- Fujitsu
- Hitachi
- LG
- Mitsubishi
- Samsung
- Sanyo
- Toshiba

Next Generation Universal Remote Controller

The new Mimic™ Next Generation Universal Remote Control for air conditioning units has been designed specifically with you, the user, in mind.

In addition to control of standard air conditioning functions - mode, temperature, fan speed and louvers - this next-generation remote also includes a 5 or 7 day programmable

timer. This feature will even work on older AC units with no built-in timer function. Set the remote to make your AC unit switch on and off automatically to suit your needs and when not in use, Mimic™ will automatically display the ambient temperature.

Mimic™ is also able to store up to four unit codes at a time - perfect for

buildings with varying makes of air conditioning unit.

Mimic™ is compatible with units from all major air conditioning manufacturers. The most popular codes are conveniently listed on the back of the remote. An auto search function is also available, should your unit not be included in the list.

FEATURES

On screen ambient temperature

Up to 4 unit codes can be stored: control 4 units at a time without reprogramming

5 or 7 day programmable timer for more economical AC operation

Compatible with all major manufacturers - manufacturer codes provided on the back of the remote controller

Auto search feature for models not listed
